PREMIUM

STATE OF THE ART IN LABELING

Retail Pricing January 1st, 2022

Premium Labelers

Available in the same models as the original Contact Classic, the Premium labeler has a modern, sleek ergo design coupled with a newly designed ink roller mechanism for quick, simple ink roller changes. The Contact Premium's ink rollers are compatible with Garvey G Series.

Table of Contents

Cross Reference Chart	Back Cover

A wide range of models to cover your every need.

Contact® Premium Labelers come in 1 Line, 2 Line, 3 Line (not shown) and Promotional models. Nearly 10 sizes and many colours of labels means we have what you need. If you are looking for pricing, coding, promotional or dating label applicators, consider Contact® Premium. All models come with an easy to change print head, thus enabling you to "dial-in" the right price, date or code quickly and easily.

Custom printed labels and message slugs are also available. With custom labels, your message/logo is pre-printed on the label. With a custom message slug, you print your message/logo on the label as it flows through the applicator. Call us for more details.

Small Body

Large Body

PREMIUM / ONE LINE

- Available with 6, 7, 8, 9 or 10 characters of print
- A-Z, month & date bands are available in special assembled configurations

Custom Labels

We offer custom labels in all the same sizes as our regular stock labels. The benefit to custom labels is that they will never wear down. The custom labels are printed as they run through the label press. Custom labels are a one case order minimum. So have your own company or slogan added right to the label.

Message Slugs

Message slugs come in 3 sizes: small, medium and large. We offer them for 1-Line, 2-Line and Large Body labelers. It's a nice way to add your company name or information to the label. Slugs can be convenient for someone who does not buy a lot of labels and can't commit to a full case order.

Ink Rollers

Product Code	Description	List Price
CN-01000	Ink Roller for Small Body (Classic)	$8.25

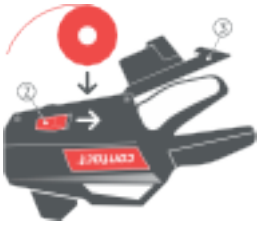
Label Gun Instructions

Setting the Price Code:

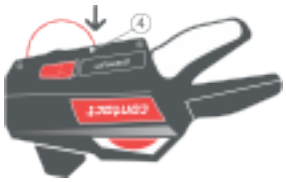
Pull the adjustment knob (1) out to the desired position and turn the knob to select the desired number. The 14th position on the print band is always neutral. Important: the adjustment knob must be pushed back in place before operating so that the labeler prints and to avoid damage to the print head.



Insertion of Label Roll:

Slide both side caps (2) simultaneously in the direction of the arrow to open the bottom (3). Insert a new label roll as shown on the drawing.

Pull out a strip of labels approximately 4 inches long and close the bottom until it snaps in to place.



Bend the strip back and feed it through the slot between the white guide pulley (4) and the transport wheel. By operating the grip several times, the label strip is transported inward and tightened. The labeler is now ready for use.

Opening the Ink Roller Carriage:

Using your thumb or index finger, simply pull the top of the Ink Roller Carriage panel (5) away from the label gun frame until it clicks open. The carriage panel will rotate downward, allowing you toaccess the Ink Roller.

Replacing the Ink Roller:

Squeeze the ink roller cartridge (6) between thumb and index finger at end. Pull the ink roller cartridge outward and it will unlock from the cross runner of the ink carriage housing. To insert a new ink roller cartridge, remove a new roller from the blister package, squeeze each end and with a slight pivoting movement from top to bottom, snap the carriage back in the to cross runner of the housing. The contact labeler is ready for operation again.

Inserting the Message Slug:

Holding the slug between your thumb and index finger, slide it downward in tothe cavity directly behind the price adjustment mechanism until it clicks into place. Simply reverse this process to remove the slug.
